

NOAH IN THE STORY

A huge part of human history is found in Genesis 1-11.
It is not Hebrew (Jewish). It is human in all respects. It is trans-cultural.

The **Creation** explains the context for what is happening within our lives.

The **Fall** reveals the conditions into which all of us are born.

The **Flood** is the first of two major cataclysms that are world-wide. (Matthew 24:37)

The **Tower** explains God's plan for humbling man and providing personal deliverance.

It is hard to imagine there were only eight people that God considering worth saving. And all from the same family! What does this tell you about humans? What does it reveal about God?

TIMELINE OF THE LAW & PROPHETS
