

## PAUL IN THE GOD STORY

This graphic shows the approximate times Paul's life and letters occurred. They center around his calling in Acts 9 (wow!) and the founding of the beyond-Jewish church in the northern center of operations (Antioch) as well as three missionary journeys and a final trip to Rome.

Paul was a zealous follower of Judaism and a hater of Christians. His is a true story of being stopped dead in his tracks - and having his world turned upside down. Which makes sense if you were struck blind and saw a bright light from heaven - and then the resurrected Jesus speaking to you by name - it would be life-changing!

Paul's journey begins soon after Jesus has risen from the dead and returned to heaven. Though he never physically walked with Jesus as the other disciples had, Paul's authenticity as a Christ-follower was beyond reproach. If anything, it made him courageously humble in ways that make him effective among the other apostles.
